DESIGN INTUITIVE DASHBOARDS

PUBLISH, SHARE, & TRAIN

ITERATE WITH USERS

We Teach the Entire Journey
From Data to Dashboards

- ⊘ Interface tour and shortcuts
- ⊘ Data connections (flat files, star schemas)
- ⊘ Discrete vs. continuous
- ⊘ Measures vs. dimensions
- ⊘ Filtering, sorting, and formatting
- ⊘ Calculated fields and formulas
- ⊘ Data aggregation and blending
- ⊘ Building custom visualizations
- ⊘ Interactivity with dashboard actions

Customize with Advanced Concepts
Scale, Augment, Delight

- ⊘ Data storytelling and design principles
- ⊘ Table calculations
- ⊘ Tableau Prep best practices
- ⊘ Content and row-level security
- ⊘ Multidimensional modeling
- ⊘ Expert level-of-detail calculations
- ⊘ Embedded analytics

> *DataDrive was a game-changer for elevating the data culture and skillsets of our team. They helped us automate and scale our embedded reporting platform to support 50+ customers and 1000+ dashboards. We were blown away by their ability to level up the Tableau skills of our team and create dashboards that actually drove action.*
